

The Shrewsbury and
Telford Hospital
NHS Trust

CONSULTANT IN DIABETES,
ENDOCRINOLOGY AND
GENERAL MEDICINE
INFORMATION FOR CANDIDATES

Our Vision and Values

The Shrewsbury and Telford Hospital NHS Trust is an organisation that strives to provide high quality, safe care for our patients in an environment which our staff are proud to work in

Our Vision:

“To provide excellent care for the communities we serve”

Our Values:

About our Vision

We believe that by adhering to our Vision and working with our Values in mind we can behave in a way which will ensure the right results for the people that matter most – our patients and their families.

About our Values

Our Trust Values provide a guide for our daily lives which we are all expected to uphold, both at work and when we are representing the Trust.

Our Values were developed by staff and our patients, so they represent what is important to us within the organisation and the way we should all behave towards patients, carers, visitors, partners and each other.

You will see our Values throughout the Trust; they are not just words on a page, they represent what we are about here at SaTH. We want patients and their families to say that the care and service they receive from all of us is consistently high-quality, safe, effective and personalised, so the feelings behind the Values shouldn't come as a surprise to anyone working in the NHS.

The reason why it is important that they are clearly written down is so we all know what's expected, and none of us are surprised if we are asked to explain any unacceptable behaviour.

About the Trust

The Shrewsbury and Telford Hospital NHS Trust (SaTH) is the main provider of acute hospital services for around half a million people in Shropshire, Telford & Wrekin and mid Wales.

Encompassing some of the most picturesque parts of England and Wales, the Trust's catchment stretches from the Cambrian Mountains in the west, to Newport and the fringes of the Black Country in the east. The main towns include: Bridgnorth, Ludlow, Market Drayton, Oswestry, Shrewsbury and Whitchurch (in Shropshire); Newport, Telford and Wellington (in Telford & Wrekin); and Newtown and Welshpool (in Powys) – all beautiful and unique.

Our main service locations are the Princess Royal Hospital (PRH) in Telford and the Royal Shrewsbury Hospital (RSH) in Shrewsbury which are located 20 minutes' drive apart. Together they provide 99% of our activity. Both hospitals provide a wide range of acute hospital services including accident & emergency, outpatients, diagnostics, inpatient medical care and critical care.

We also provide services such as consultant-led outreach clinics at the Wrekin Community Clinic, Telford, the Robert Jones and Agnes Hunt Orthopaedic Hospital, Gobowen and the Bridgnorth, Ludlow and Whitchurch Community Hospitals.

We employ almost 6,000 staff, and hundreds of staff and students from other organisations also work in our hospitals. We benefit from around 1,000 wonderful volunteers, and our main charitable partners are the League of Friends at the Royal Shrewsbury Hospital, Friends of the Princess Royal Hospital, and the Lingen Davies Cancer Appeal which is based at the Royal Shrewsbury Hospital.

We are committed to providing the best possible diagnostic facilities and high-quality clinical care in a clean, supportive environment where patients are treated effectively with respect and dignity.

The Shrewsbury and Telford Hospital NHS Trust continues to work with our partners in health and social care in Shropshire, Telford and Wrekin and mid Wales to develop patient-focused services that meet the needs of our communities.

Plans have been given the go ahead to transform local hospital services for the half a million residents of Shropshire, Telford & Wrekin and mid Wales to make sure two vibrant hospitals and the wide range of services they provide for people locally are kept in the county. This landmark decision will result in better care for patients, secure the £312m on offer from HM Treasury and develop both hospital sites to deliver state of the art facilities in which staff will be proud to work and patients will choose to be treated.

A message from our Clinical Director

Thank you for considering a career with us at the Shrewsbury and Telford Hospital NHS Trust. We are delighted to announce an exciting opportunity for a Consultant in Diabetes and Endocrinology to join our dedicated and innovative team.

At Shrewsbury and Telford NHS Trust, we are committed to delivering exceptional care to our community. This role offers you the chance to shape diabetes services and make a real impact on patient outcomes, while working in a supportive and collaborative environment. Our Trust values innovation, teamwork, and professional development, and we are looking for a dynamic and forward-thinking individual to lead the way in delivering high-quality, patient-centred care.

You will be joining a multi-disciplinary team passionate about improving diabetes care, with opportunities to develop specialist clinics, engage in research, and lead service improvement projects. With close links to tertiary services and primary care teams, this is an excellent opportunity to be at the forefront of integrated care.

Shrewsbury and Telford offer a fantastic quality of life, combining stunning natural beauty with vibrant communities. Whether you're looking for excellent schools, outdoor activities, or a welcoming place to call home, this area has something for everyone.

We warmly welcome applications from candidates who share our vision and values. If you're ready to take the next step in your career, we'd be delighted to hear from you.

Anna Green

Clinical Director Diabetes and Endocrinology

Main Duties & Responsibilities

Clinical

- To develop new and complement existing services in the provision of Diabetes, Endocrinology and General Medical Services.
- To undertake on-call medical duties in collaboration with Consultant Physician colleagues.
- To deliver high quality Diabetes, Endocrinology and Medical Services.
- To provide inpatient diabetes care and support ambulatory care.
- To provide diabetes and endocrine outpatient clinics.
- To develop enhanced clinical skills, especially in the assessment and management of acutely ill patients.
- To have excellent team-working skills with the abilities and professional attitude to work well in a multi-professional team.
- To deliver clinical and quality targets agreed both nationally and locally with clinical teams and commissioners.
- To follow patients throughout their clinical pathways.

Organisational

- To work with local managers and professional colleagues in the employing Trust in the efficient running of the service.
- To be subject to the provisions of the Terms and Conditions of Service, be required to observe the Trust's agreed policies and procedures, drawn up in consultation with the profession on clinical matters and to follow the local and national employment and personnel policies and procedures.
- To participate in the Continuous Professional Development and the Trust's appraisal scheme.
- To be aware of the responsibility of all employees to maintain a safe and healthy environment for patients, visitors and staff and attend all relevant health and safety training.
- Ensure that all Trust-wide standards are maintained to improve the quality of total care to all who come into contact with services provided by Shrewsbury and Telford hospital NHS Trust.

This job description is not intended to be exhaustive. The post holder will be expected to carry out any reasonable duties requested of them, appropriate to the grade and role of the post. Duties and responsibilities may vary from time to time in light of changing circumstances and in consultation with the post holder.

Job Description

Job Title:	Consultant in Diabetes, Endocrinology and General Medicine
Grade:	Consultant
Division:	Medicine and Emergency Care
Responsible to:	Divisional Medical Director
Professionally Accountable to:	Medical Director
Hours:	10 Programmed Activities
Duration:	Permanent
Salary:	£105504 - £139882 per annum [YC72]

Job Summary

The Shrewsbury and Telford Hospitals NHS Trust (SaTH) are looking to appoint one Consultant in Diabetes, Endocrinology and General Internal Medicine to develop new and complement existing services presently being delivered to a high standard by a team of full time and part time consultants. The posts are subject to a collective job-planning exercise but attract 10 Programmed Activities per week. The post is a replacement posts primarily based at the Princess Royal Hospital, although it is a contractual requirement that all consultants newly appointed to the Trust must be prepared to work on either site.

Contribution to an out of hours on call rota is core to this role.

The Post

The Department

The department works across both the Royal Shrewsbury and Princess Royal Hospitals with most of the diabetes and endocrine services and staff currently based at the Royal Shrewsbury Hospital in the purpose-built Hummingbird Centre.

Future reorganisation of the trust may alter bed bases, with plans being developed to have a hot and cold site. The role includes participation in the general medical on-call rota. In addition, there are discussions ongoing about providing a 7-day diabetes service with a separate rota.

Inpatient diabetes care will be a key emphasis of this post to strengthen the diabetes in reach service and optimise care of patients in diabetes across the hospital and thus enable reduction of length of stay. The candidate will also support ambulatory care to prevent admissions in patients with unstable diabetes. The consultant will be supported by the hospital Diabetes Specialist Nurses (DSNs) in this work.

The work will also include developing robust protocols for management of acute diabetic emergencies, pre- and peri-operative management of diabetes. There are also active discussions in developing community-based outreach diabetes clinics to support primary care. The post will support a subspecialty interest complementary to current interests of the department or input in the antenatal endocrine clinic and development of a diabetes/renal link service or young adults' diabetic clinic.

The services are closely integrated with patients care through the local Diabetes UK branch as well as through the Pituitary Foundation. There are local patient support groups for those with pituitary disease, thyroid eye disease and those on insulin pumps (Severn Pumpers) through which the consultants take an active part in patient education and support. It is expected that the appointee will contribute to the existing groups and encourage development of further groups depending on clinical interest.

Diabetic Care in Shropshire

Diabetes care in Shropshire is organised on a countywide basis with agreed guidelines, which apply in both hospitals (RSH and PRH). The aim is to provide services to diabetic patients without admitting to hospital except those who require emergency treatment.

The Shropshire Diabetes and endocrine services are run from the purpose-built Hummingbird Centre at RSH which includes a dedicated outpatient suite where all diabetes and endocrine clinics (apart from antenatal) are carried out. There is dedicated area in the centre adjacent to the specialised clinic facility which includes offices for consultants, secretaries, diabetes nurse specialists, junior doctors, chiropodists, endocrine programmed investigations and research facilities. There is also a dedicated seminar room used for MDT meetings, patient group support meetings and patient group treatment initiation eg insulin pumps / CGM. The Telford service is run from the PRH OPD department, with some programmed investigations supported by the Day Case unit, others coming across to the Hummingbird Centre.

The department provides outpatient services for people with Type 1 and Type 2 diabetes, including: antenatal diabetes clinics, transitional clinics, MDT diabetic foot clinics, inpatient outreach diabetes, continuous glucose monitoring (CGM)/insulin pump services and complex diabetes clinics are available.

There is support from a hospital diabetes specialist nursing team (9.2 WTE) . There is a full community diabetes nursing team for outpatient community-based work.

Dietician Support

A specialist dietician (0.6 WTE) based at RSH specifically supports patients on insulin pump therapy and pregnant people with diabetes.

There is also a community-based diabetes specialist dietician service. The community diabetes nurses and dieticians run DAFNE sessions for people with Type 1 diabetes and XPERT education sessions for people with Type 2 diabetes. They have support from a dedicated diabetes consultant.

Foot Care Services

Specialist diabetes podiatry services are available at both hospitals, and they support the MDT Diabetic foot

clinics (also supported by vascular and orthopaedic surgeons and orthotics). There are community based high risk diabetic foot ulcer clinics.

Eye-Screening Support

The county wide diabetes eye-screening programme is managed by the Midlands Partnership Foundation Trust (MDFT). It has close links with the trust ophthalmology department which offers all patients over the age of twelve years routine annual eye screening by digital retinal photography, and co-ordinates optometrist led biomicroscopy/OCT clinics and other ophthalmic clinic appointments.

Patients with thyroid eye disease attending the trust are seen by a dedicated consultant oculoplastic surgeon and have access to the acute eye clinic for emergencies. Complex patients have access to high dose methylprednisolone at the Hummingbird Centre or orbital radiotherapy through the oncology services.

Renal Support

The renal unit is located adjacent to the Hummingbird Centre, and the nephrologists have their outpatient clinics at the Hummingbird Centre. Whilst there are close links between the 2 teams, we have identified the need for a formal consultant led diabetes/renal link service with a named consultant and DSN.

Vascular Support

There are close links with the vascular surgery department which is based at the RSH site for inpatients and provides outpatient services at both sites including joint diabetic foot clinics. The vascular surgeons support the MDT foot clinics (3/week at RSH and 1/week at PRH). There is also a monthly orthopaedic consultant clinic within the diabetic foot service.

Antenatal Diabetes and Endocrinology

Joint antenatal/diabetes clinics are done alternate weeks at RSH and PRH. In the antenatal clinics, the diabetes nurses mainly support those with type 1 diabetes and diabetes specialist midwives support patients with gestational and Type 2 diabetes. There is a need identified to strengthen consultant presence in the antenatal endocrine clinics.

The Investigation Unit

There is a wide range of endocrine conditions referred for diagnosis and management, with investigation unit facilities available at the Hummingbird Centre. This service is available mainly on an outpatient basis with approved and regularly updated protocols for the management of endocrine conditions and is supported by Endocrine Specialist Nurses.

Radioiodine Service

Radioiodine service is available at PRH for the treatment of patients with hyperthyroidism.

Endocrine Surgery

Adrenal surgery (including laparoscopic) is carried out locally by a dedicated surgeon, as is thyroid and parathyroid surgery.

A dedicated thyroid nodule service is run by the ENT department and a joint clinic with endocrinologists is being developed.

Commented [ML(SATHNT1)]: Has this restarted?

Rare Endocrine Conditions

The small numbers of endocrine patients referred to a tertiary centre are mainly those requiring pituitary surgery and are referred to pituitary teams at Stoke-on-Trent or Birmingham. Close links are maintained with these centres and the diagnostic work-up of patients with pituitary disease is carried out locally, as is the post-operative and post radiotherapy endocrine testing, imaging, and long-term follow up (monthly dedicated pituitary clinic). Patients with neuroendocrine tumours are referred to the NET services at Queen Elizabeth Hospital, Birmingham.

Workload Information

Inpatients: Ward round for 16 inpatient endocrine/GIM when on beds (25 weeks/year)

Outpatients:

- Diabetes and Endocrine clinics: 3 new and 7 follow-ups (Approximate)

- Antenatal diabetes clinic: 2 new and 18 patients (per consultant obstetrician list) shared by Consultant Endocrinologist, Consultant Obstetrician, Diabetes Specialist Nurse and Diabetes Specialist Midwife (Approximate).

Teaching within the Department

There are thriving postgraduate centres at both hospitals. The Shropshire Education & Conference Centre at RSH enhances the already excellent reputation of the hospital for training junior staff, supporting seniors and continued professional development. Alongside this, the new Simulation Centre at RSH and the Education Centre at PRH mean that a wide range of teaching can be accommodated. The Shrewsbury and Telford Hospitals is an associated teaching hospital linked to the Keele University medical school and receives undergraduate medical students for training and teaching through the trust.

There is a weekly Diabetes multidisciplinary lunchtime meeting for all the team members. There is a combination of formal teaching and case based discussions and once a month there is a meeting dedicated to diabetic foot care.

The consultant will be supervising up to 2 resident trainees.

The Departments Medical Staff

The department consists of the following permanent medical staff:

Name	Base	Sub-specialty interest
Dr Anna Green	RSH	RSH antenatal diabetes, diabetic foot
Dr Prashant Singh	RSH	Complex diabetes, adrenal
Dr Srinivasa Rangan	RSH	Transitional diabetes, adrenal
Dr Probal Mouluk	RSH	CSII, Diabetic foot
Dr David Barton	PRH	PRH antenatal diabetes, radioiodine
Dr Anuja Sagdeo	PRH	PRH diabetic foot clinic

The consultants are also supported by a mix of Foundation Year 1 Doctors, Senior Clinical Fellows (IMT grade), and SPRs who work as one team and are expected to cross cover.

Job Plan

A formal job plan will be agreed between the successful candidate and their Clinical Director and consultant colleagues, on behalf of the Medical Director within 3 months of starting in post. A full-time job plan is based on a 10 PA working week. The job plan will be reviewed annually and is a prospective agreement that sets out the consultant's duties, responsibilities, and objectives for the coming year. It covers all aspects of a consultant's professional practice including clinical work, teaching, research, education and managerial responsibilities. It will provide a clear schedule of commitments, both internal and external and will include personal objectives, detailing links to wider service improvements and trust strategic priorities.

For a full-time contract, the job plan will be divided on average per week (pro-rata for a part time post) as:

- 7.5 Programmed Activities (PAs) of Direct Clinical Care - includes clinical activity, clinically related activity and predictable and unpredictable emergency work.
- 2.5 Supporting Professional Activities (SPAs) - includes CPD, audit, teaching and research.

The allocation of PAs is reviewed and may be subject to adjustment when a further diary exercise is undertaken or if the service demands a review of the team job plan.

Any applicant who is unable, for personal reasons, to work full-time will be eligible to be considered for the post. If such a person is appointed, modification of the job content will be discussed on a personal basis with the Trust in consultation with other consultant colleagues.

On-call and cover arrangements

The post holder will be expected to participate in the General Internal Medicine (GIM) on call on a 1 in 14 rota weekdays and weekends. When on call, the consultant will do an evening post take ward round from 17:00 to 20:30 and again next morning will do post take round from 08:00 to 10:00. There is a Tuesday off in lieu after a weekend on-call. There is a robust acute medical consultant team who will be working alongside the on-call consultant on the Acute Medical Unit (AMU). Admissions are unselected, but there is separate input in AMU both in and out of hours from the gastroenterologists, cardiologists, and stroke consultants (who have their own separate rota and do not participate in the GIM rota).

Timetable

The following provides scheduling details of the clinical activity and clinically related activity components of the appointee's standard working week. At any one time, 1 consultant will cover inpatients on endocrine ward (16 beds) and will cross-cover with colleague i.e. there will be 25 weeks on beds and 17 weeks off beds for each consultant. Whilst off beds there will be an expectation to do more clinics. The frequency of on-beds/off-beds rotation could be either every alternate week or fortnight. Indicative job plans are enclosed below, the trust is willing to work with the consultant to make adjustments.

Job plan (On inpatient beds 25 weeks/year, off beds 17 weeks/year)

On beds (25 Weeks/year) (10 PA/week including 1.5PA out of hours on call work)

On Beds	AM	PM
Monday	Ward round (1 DCC)	Referrals/ Outreach 0.25 DCC Admin 0.75 DCC
Tuesday	Ward round (0.5 DCC) Diabetes meeting (0.25 SPA)	Referrals/ Outreach 0.25 DCC 0.75 SPA
Wednesday	Ward round (1 DCC) Grand round	0.5 SPA
Thursday	Ward round (0.5 DCC) Endocrine meeting (0.25 SPA)	Referrals/ Outreach 0.25 DCC Admin 0.25 0.75 SPA
Friday	Ward round (1 DCC)	Referrals/ Outreach 0.25 DCC
Saturday	On call as detailed above	On call as detailed above
Sunday	On call as detailed above	On call as detailed above

Out of hours 1.5 DCC depending on rota, 3% availability supplement if on overnight on call rota.

Job Plan (Off beds) 17 weeks/year (10 PA/week including 1.5PA out of hours on call work)

Off Beds	AM	PM
Monday	Diabetes clinic PRH 1DCC	1 SPA
Tuesday	Insulin Pump Clinic 1 DCC Diabetes meeting (0.25SPA)	
Wednesday	Foot Clinic (RSH) 1DCC Grand Round	Antenatal Diabetes Clinic (1 DCC)
Thursday	Endocrine clinics 1 DCC Endocrine meeting (0.25 SPA)	
Friday	Admin 1 DCC	1 SPA
Saturday	On call as detailed above	On call as detailed above
Sunday	On call as detailed above	On call as detailed above

Out of hours 1.5 PA DCC depending on rota, 3% availability supplement for overnight on call rota.

This timetable is indicative only and the formal job plan will be agreed between the successful applicant and their clinical director within 3 months of starting in post.

General Conditions

Annual Leave

Doctors upon first appointment to the Consultant grade shall be entitled to annual leave at the rate of 32 days a year.

Doctors who have completed a minimum of 7 years' service as a Consultant shall be entitled to annual leave at the rate of 34 days per year.

The rate of annual leave will be based on a full time contract of 10 PAs. Additional PAs above 10 PAs will not accrue additional entitlements to annual leave over and above the full time allocation. For consultants working part-time, the full time entitlement will be pro-rated in accordance with the contracted PAs.

Study Leave

Professional and Study leave includes but is not restricted to participation in:

- Study, usually but not exclusively or necessarily on a course or programme;
- Research
- Teaching
- Examining or taking examinations
- Visiting clinics and attending professional conferences
- Training

The appointee will be entitled to 30 days of Study/Professional Leave across a 3 year fixed period with a set budget.

Research

The Trust is participating in many research projects and is part of the CLRN. We are aiming to increase our participation in portfolio trials. Every effort would be made to accommodate a particular research interest of the successful applicants, particularly if trainee members of the department could be incorporated in the methodological and practical stages.

Audit

Great importance is placed upon audit within the Shrewsbury and Telford Hospital NHS Trust and you will be expected to contribute to this as part of your role. The Trust has a fully staffed Audit Department at both hospitals with extremely well-organised teams.

Appraisal, Revalidation and Mentorship

- The Trust has the required arrangements in place, to ensure that all Doctors have an annual appraisal with a trained appraiser and supports all Doctors going through the revalidation process.
- The Trust supports the Royal College of Physicians Guidance on provision of mentors for new Consultants, in line with GMC recommendations. This will be provided within the Trust.
- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Premier IT Revalidation e-Portfolio (PReP) Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.
- A formal review of the job plan will be performed at least annually. Appropriate educational and training needs will be supported by the Trust, as agreed with the LNC (for example, the approval and funding of study leave). An annual job plan review at individual and departmental level is being introduced. You will be expected to participate in this exercise.
- We will require you to register SaTH as your designated body via the GMC to ensure that you are set up on the Equiniti Revalidation System. We will complete this as soon as possible upon your commencement with the Trust.
- The Trust also supports the requirements for continuing professional development and is committed to providing time and financial support for these activities.

Accommodation

The Trust offers single residential accommodation for medical staff depending on availability. The Trust only provides single accommodation so private rental would need to be arranged for family accommodation.

Other Facilities

There is an active Doctors Mess run by the Junior Doctors Mess Committee which organise social events, parties, outings etc. There are on-site fitness centres (a membership fee is payable) available to all members of staff.

Office and Secretarial Support

The post holder will have full-time secretarial support with an adequately equipped office that will include a computer with access to Trust IT facilities.

Staff Benefits

There are a number of staff benefits schemes which attract tax reductions if joined. This includes a discount on the staff car parking charge, staff gym membership, on-site crèche/childcare provision and access to NHS Discounts schemes.

Health & Safety

As an employee of the Trust you have a responsibility to:

- Take reasonable care of your own health and safety and that of any other person who may be affected by your acts or omissions at work, and ensuring a COVID secure workplace for the team.
- Co-operate with the Trust in ensuring that Statutory Regulations, Codes of Practice, Local Policies and Departmental Health and Safety Rules are adhered to.
- To not intentionally or recklessly interfere with or misuse anything provided in the interests of health and safety.

Infection Prevention and Control

The prevention and management of acquired infection is a key priority for the Trust. Any breach of Infection Control Policies is a serious matter which may result in disciplinary action. As an employee of the Trust you have a responsibility to:

- Ensure that your work methods are compliant with the Trust's agreed policies and procedures and do not endanger other people or yourself.
- Be aware of Infection Prevention and Control Policies, Practices and Guidelines appropriate for your duties and you must follow these at all times to maintain a safe environment for patients, visitors and staff.
- Maintain an up-to-date knowledge of Infection Prevention and Control, Policies, Practices and Procedures through attendance at annual mandatory updates and ongoing continuing professional development.
- Challenge poor infection prevention and control practices of others and to report any breaches, using appropriate Trust mechanisms (e.g. incident reporting policy).

Information Governance

The Trust is committed to compliance with Information Governance standards to ensure that all information is handled legally, securely, efficiently and effectively. You are required to comply with the Trust's Information Governance policies and standards. Failure to do so may result in action being taken in accordance with the Trust's Disciplinary Procedure.

- Confidentiality and Security - Your attention is drawn to the confidential nature of information collected within the NHS. Whilst you are employed by the Trust you will come into contact with confidential information and data relating to the work of the Trust, its patients or employees. You are bound by your conditions of service to respect the confidentiality of any information you may come into contact with which identifies patients, employees or other Trust personnel, or business information of the Trust. You also have a duty to ensure that all confidential information is held securely at all times, both on and off site.
- Disclosure of Information - The unauthorised use or disclosure of information relating to the Trust's activities or affairs, the treatment of patients or the personal details of an employee, will normally be considered a serious disciplinary offence which could result in dismissal. Upon leaving the Trust's employment and at any time thereafter you must not take advantage of or disclose confidential information that you learnt in the course of your employment. Unauthorised disclosure of any of this information may be deemed as a criminal offence. If you are found to have permitted the unauthorised disclosure of any such information, you and the Trust may face legal action.
- Information Quality and Records Management - You must ensure that all information handled by you is accurate and kept up-to-date and you must comply with the Trust's recording, monitoring, validation and improvement schemes and processes.

Professional Standards and Performance Review

As an employee of the Trust you have a responsibility to:

- Participate in statutory and mandatory training as appropriate for the post.
- Maintain consistently high personal and professional standards and act in accordance with the relevant professional code of conduct.
- Take responsibility for the maintenance and improvement of personal and professional competence and to encourage that of colleagues and subordinates.
- Participate in the Trust's appraisal processes including identifying performance standards for the post, personal objective setting and the creation of a personal development plan in line with the NHS Knowledge and Skills Framework outline for the post.

Safeguarding Children and Vulnerable Adults

We all have a personal and a professional responsibility within the Trust to identify and report abuse. This may be known, suspected, witnessed or have raised concerns. Early recognition is vital to ensuring the patient is safeguarded; other people (children and vulnerable adults) may be at risk. The Trust's procedures must be implemented, working in partnership with the relevant authorities. The Sharing of Information no matter how small is of prime importance in safeguarding children, young people and vulnerable adults.

As an employee of the Trust, you have a responsibility to ensure that:

- You are familiar with and adhere to the Trust's Safeguarding Children Procedures and Guidelines.
- You attend Safeguarding Awareness Training and undertake any additional training in relation to safeguarding relevant to your role.

Social Responsibility

The Trust is committed to behaving responsibly in the way we manage transport, procurement, our facilities, employment, skills and our engagement with the local community so that we can make a positive contribution to society. As an employee of the Trust, you have a responsibility to take measures to support our contribution and to reduce the environmental impact of our activities relating to energy and water usage, transport, and waste.

Continuous Improvement

The Shrewsbury and Telford Hospital NHS Trust is committed to creating a culture that puts Continuous Improvement at the forefront of our transformational journey and our aim is to empower colleagues at all levels have the confidence, capability, passion, and knowledge, to test changes and make improvements at SaTH and in the communities we serve.

Following a successful five-year partnership with the Virginia Mason Institute in the USA, SaTH continues to further develop and embed the Trust's approach to Continuous Improvement at all levels of the organisation. You will be supported by an Improvement Hub, which will provide the necessary expertise to support you make improvements, while also providing training at various stages of your time at SaTH, as part of your continuing professional development.

No Smoking Policy

There is a no smoking policy in operation within the Trust. Smoking within the Trust's premises or within the Trust's grounds is not permitted.

Miscellaneous

This job description is an outline of the key tasks and responsibilities of the post and is not intended to be an exhaustive list. The job may change over time to reflect the changing needs of the Trust and its services as well as the personal development.
